S.No	Questions	Accuracy	Precision	Recall	F1-score	Macro Average	Weighted Average
1	What is the overall performance? / what is the Accuracy of model?(Both purchased and not purchased)	87%					
2	what is the percentage of correct classification of not purchased?			89%			
3	what is the percentage of correct classification of purchased?			84%			
4	What is the percentage of correct and wrongly classified of purchased?		82%				
5	What is the percentage of correct and wrongly classified of not purchased?		90%				
6	What is the overall performance of purchased?				83%		
7	What is the overall performance of not purchased?				90%		
8	what is the average performance of precision?(correctly and wrongly classifier)					86%	
9	what is the average performance of Recall?(correctly classifier)					87%	
10	what is the average of overall performance?(F1 measure)					86%	
11	what is the sum of product of proportion rate (weight)of each class? Precision						87%
12	what is the sum of product of proportion rate(weight)of each class? Recall						87%

13	what is the sum of product of proportion rate (weight)of each class? F1 measure						87%
