S.No	Questions	Accuracy	Precision	Recall	F1-score	Macro Average	Weighted Average
1	What is the overall performance? / what is the Accuracy of model?(Both purchased and not purchased)	68%					
2	what is the percentage of correct classification of not purchased?			86%			
3	what is the percentage of correct classification of purchased?			32%			
4	What is the percentage of correct and wrongly classified of purchased?		54%				
5	What is the percentage of correct and wrongly classified of not purchased?		71%				
6	What is the overall performance of purchased?				40%		
7	What is the overall performance of not purchased?				78%		
8	what is the average performance of precision?(correctly and wrongly classifier)					62%	
9	what is the average performance of Recall?(correctly classifier)					59%	
10	what is the average of overall performance?(F1 measure)					59%	
11	what is the sum of product of proportion rate (weight)of each class? Precision						65%
12	what is the sum of product of proportion rate(weight)of each class? Recall						68%
13	what is the sum of product of proportion rate (weight)of each class? F1 measure						65%
